

SPM42XL

4,200KG CAPACITY, BASELESS TWO POST LIFT

The Balco SPM42XL is a traditional electro-mechanical, or 'screw' design, with a 4,200kg capacity. This Clear-Floor 2 Post Lift is manufactured by the world-renowned lift manufacturer Rotary, in their Italian manufacturing plant.

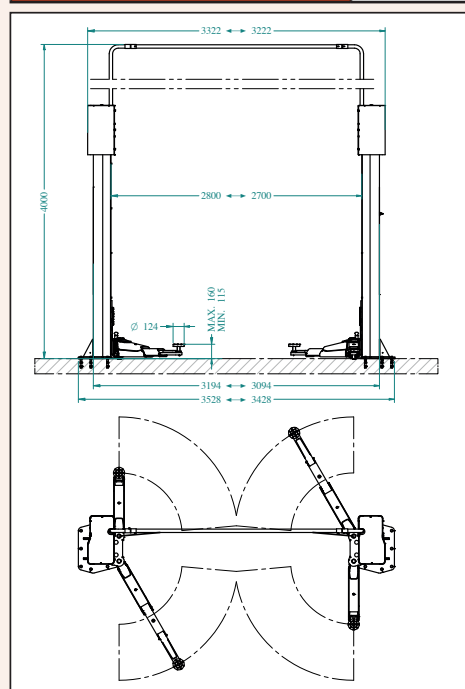

With an adjustable design which allows for varying installation widths, this model includes luxury features such as Acoustic Descent (no need for toe guards), versatile lifting arm configuration for maximum coverage, and bi-directional loading.

KEY FEATURES

- Flexible and versatile: Three possible installation widths to satisfy all workshop needs.
- Baseless (Clear Floor) 2 Post Lift
- Arm geometry designed for lifting vans, including long-wheelbase
- Symmetric 3-stage arm configuration
- Automatic arm locking system
- Equipped with an acoustic anti toe trap system – free from mechanical foot guards
- Internal carriages run on lubricated sliding guides, which are protected from the external environment, maximising the life of the sliding elements

SPECIFICATIONS

Lifting Capacity:	4,200 kg
Min required ceiling height:	4,100 mm
Overall height:	4,000 mm
Drive-Thru:	2,404–2,504 mm
Min/Max. pad Height:	115/156 mm
Max lifting height:	2,042 mm
Front Arm Min/Max:	705/1,330 mm
Rear Arm Min/Max:	705/1,330 mm
Lifting/lowering time:	58 secs
Power supply (3 Ph):	400 V 50 Hz
Motor power:	2x 3.5kW
