TC3240

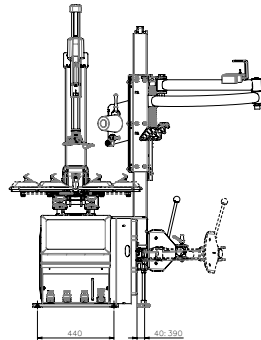

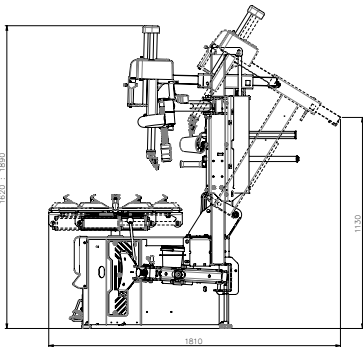

Professional Automatic Tyre Changer

The Balco TC3240 is an automatic tyre changer ideal for use in busy tyre centres.

Designed to operate on car and light commercial wheels up to 24" (external clamping 22"), this model boasts super-automatic operation, meaning the demount head is placed into position by the press of a button rather than manually via spring. A heavy duty construction and advanced specification make this machine suitable for any environment, regardless of volume.
