

HEAT MATE

PROFESSIONAL INDUCTION HEATER

Common workshop processes become a breeze. The Hofmann Megaplan Heat Mate induction heater is the perfect partner to any Hofmann Megaplan wheel alignment solution.

- Unseizing of bolts for track rod ends and ball joints
- Pin or bearing release
- Heating for straightening/bending
- Removing suspension and exhaust components

KEY FEATURES

- Plug it in, switch on and you're ready
- Takes seconds to heat ferrous based metal
- Finger point accuracy allows for close proximity to heat-sensitive parts
- Water-cooled components mean longer usage times
- The flameless solution means no naked flame or excessive heat, making it safer than traditional methods
- Cheaper by up to 50% vs oxyacetylene
- Opportunity to lower insurance policy costs by removing oxyacetylene from the workplace

INCLUDED AS STANDARD

- Multiple system indicator LEDs
- User friendly panel with 5 heat output/power level settings
- Long inductor cable (3.0m)

SPECIFICATIONS

Input Power:	3.5kW-16A
Voltage:	230V/1PH+T 50Hz
Working Frequency:	15-30 kHz
Duty Cycle:	9 mins (* ± 5% based on 20°C room temperature@ max power)
Inductor Cable Length:	3 metres
Cooling Systems Tank Capacity:	2 litres
Dimensions:	500mm x 250mm x 280mm
Weight:	13 kg
