

# WC350D

## ELECTRIC WHEEL LIFTER

**The battery powered WC350D Electric Wheel Lifter from Hofmann Megaplan is designed to handle a wide variety of heavy tyre and rim combinations with ease, when you're working on vehicles on smaller 2 post and wheel-free scissor lifts.**

Integrating seamlessly into the everyday operation of your garage, it will ease the stress of removing wheels once a vehicle has been lifted, saving you time and money but most importantly reducing the risk of lifting injury.

This easy to use electric wheel lifter is completely portable for ultimate mobility around your workshop. Its small footprint takes up minimum floor space and makes for easy storage and quick use.

### KEY FEATURES

- Light aluminium alloy body for easy manoeuvrability
- Low workshop footprint
- Integrated ergonomic handle and control panel
- LED digital display with height memory function for perfect positioning when refitting a wheel
- 'Safe hook' to hold wheel in position
- Long life DC motor for up to 1,000,000 operations
- Battery powered (rechargeable)
- Three operational speeds
- Integrated wheel brakes

### SPECIFICATIONS

Max lifting weight:	65kg
Motor power:	200W
Lifting height:	0-1.2m
Motor voltage:	DC, 24V
Battery type:	12V, 12Ah (x2)
Charging voltage:	AC230V, 50/60 Hz
Charging time:	4-5 hours
Lifting precision:	2mm
Lifting time (fully charged):	12-16 seconds
Max no. of operating cycles (when fully charged):	300
Dimensions (H/D/W):	1630mm x 740mm x 700mm
