

LUXUS 314 G-SERIES (12V)

SWING-ARM TYRE CHANGER FOR MOBILE FITTING OPERATIONS

A Heavy Duty, Semi-automatic Tyre Changer

The Luxus 314 G-Series is a traditional, semi-automatic tyre changer with 'swing-arm' design.

The 314 builds on the original and very popular megamount 303, with the addition of our patented QuadraClamp turntable, a healthy 24" rim clamping capability and the inclusion of a light press arm and manual bead press, to make light work of stiff, low profile and run-flat tyres in a mobile fitting environment.

Additionally, and unusually, this model boasts an increased turret height and bead breaker opening in order to handle rims up to 14" wide, accommodating the latest assemblies from BMW, Porsche and the like.

The 314 G-Series is an excellent choice for those looking for a simple, compact tyre changer.

KEY FEATURES

- Taller turret provides an ability to handle 14" wide rims
- Mobile version supplied with space-saving assist arm
- Now with QuadraClamp turntable

**12v
OR
240v**

Can be supplied in 12V, or 240V versions, dependent on mobile or static installation
