

LUXUS 314 G-SERIES (240V)

SWING-ARM TYRE CHANGER

A Heavy Duty, Semi-automatic Tyre Changer

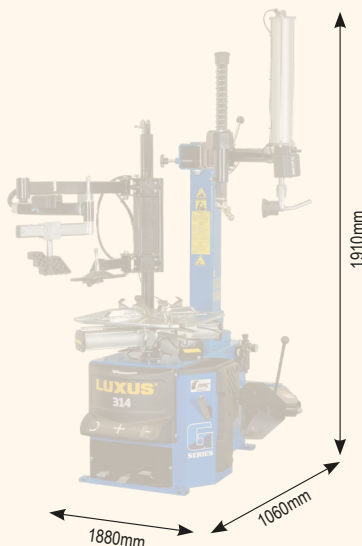

The Luxus 314 G-Series is a traditional, semi-automatic tyre changer with 'swing-arm' design. The 314 builds on the original and very popular megamount 303, with the addition of our patented QuadraClamp turntable, a healthy 24" rim clamping capability and the inclusion of the unique 'megafit duo light' twin assist arm system; essential for making light work of stiff, low profile and run-flat tyres.

Additionally, and unusually, this model boasts an increased turret height and bead breaker opening in order to handle rims up to 14" wide, accommodating the latest assemblies from BMW, Porsche and the like.

The 314 G-Series is an excellent choice for those looking for a simple, compact tyre changer.

KEY FEATURES

- Taller turret provides an ability to handle 14" wide rims
- Mobile version supplied with space-saving assist arm
- Now with QuadraClamp turntable

**12v
OR
240v**
