

EASY 2 G-SERIES

TYRE CHANGER

The **Luxus EASY 2** is a development of the original megamount **EASY** tyre changer, offering even greater sophistication over an already excellent machine.

This alternative style of tyre changer, reduces manual effort to a minimum, and the emphasis is on larger rims fitted with low profile tyres. An integral wheel lifter makes light work of the heaviest assemblies, and the QuickLock centre post clamping ensures there is no contact with the outer edge of the rim.

Enhancements over the original **EASY** include:

- **Twin Disk Bead Control** - The **EASY 2** incorporates TWO disks, top and bottom, providing the best possible bead loosening without the need to 'flip' one disk as per the previous model.
- **LED Under Lighting** - Integral, powerful LED lighting now illuminates the underside of the rim, providing improved visibility and control for the operator.

Now includes LED under lighting and additional, lower bead-loosening disk

SPECIFICATIONS

Rim Clamping	12"-34"
Max. Wheel Diameter	47" 1200mm
Tyre Width	16" 410mm
Max. Lift Capacity	80kg
Force of bead breaking cylinder (10bar - 145 Psi)	12037 N
Service Pressure	8-10bar (116-145 Psi)
Power Supply Voltage	230V-1Ph
Power of Spindle Rotation Motor	0,75 Kw
Max. Spindle Rotation Torque	1200 Nm
Clockwise Rotation Speed of Spindle	8-16 rpm
Pressure Limiter of Inlet Air	10bar
Inflation Pressure Limiter	4,2bar-61 Psi
Dimensions (WxLxH) Max.	1185 x 1960 x 2120mm
Net Weight	405 Kg
Noise Level in Working Conditions	<70 db
